When you enroll in the Health Savings PPO, you can open an HSA with HealthEquity. The HSA allows you to pay for current health care expenses or save for future expenses—even into retirement. The funds in your account never expire, and you can take your HSA with you if you leave Illumina. You can contribute up to the IRS annual maximum on a pre-tax basis. When you use the account to pay for qualified health care expenses, you do not pay federal income taxes on the funds. You can also invest your balance above \$2,000, and any investment earnings are tax-free.

Illumina contributes money to your HSA each January to help you pay for out-of-pocket health care expenses. If you enroll during the year, the amount you receive from Illumina will be pro-rated based on your benefits effective date. The combination of your personal contribution and the Illumina contribution cannot exceed the IRS annual maximum.

	2025 IRS maximum	Illumina annual contribution	Your 2025 maximum contribution*
Employee only	\$4,300	\$1,000	\$3,300
Family	\$8,550	\$1,500	\$7,050

*If you are age 55 or above, you can contribute an additional \$1,000

IRS requirements for an HSA

You are eligible to open an HSA if you meet the requirements defined by the IRS below:

- You are covered under the Health Savings PPO and have no other health coverage (unless it's a high deductible health plan)
- You or your covered spouse do not participate in a Health Care Flexible Spending Account (FSA)
- You are not enrolled in Medicare or Tricare (be sure to stop contributing to your HSA six months before enrolling in Medicare)
- You are not claimed as a dependent on someone else's tax return

Flexible Spending Accounts (FSAs)

Participating in FSAs helps you lower your taxable income and cover health and dependent care expenses that you typically would pay out-of-pocket. Illumina offers two FSA options through HealthEquity:

Health Care FSA	Dependent Care FSA
<ul style="list-style-type: none">• Contribute up to \$3,200 for eligible medical, dental, and vision expenses• The full amount you elect will be available on January 1• You can carry over \$640 of unused funds as long as you enroll in the Health Care FSA for the next plan year (if you do not enroll for the next plan year, any remaining funds will be forfeited after December 31)	<ul style="list-style-type: none">• Contribute up to \$5,000 per household (\$2,500 if married and filing taxes separately) for eligible child or elder care services so you can work full-time• You can only use up to the amount you have in your account• Unused funds will be forfeited at the end of the calendar year

Your participation in the FSAs does not roll over from one year to the next. Each year, you'll need to elect the amount you want to contribute up to the annual IRS maximum. The amount you elect will be deducted from your paycheck before taxes are withheld in equal installments throughout the year. HealthEquity will send you a debit card if you enroll in the Health Care FSA. For the Dependent Care FSA, you can request reimbursement up to the amount you have in your account.

IRS rules for FSAs

Keep in mind that the IRS has rules for FSAs:

- FSAs function separately; you cannot use funds from one account to pay for eligible expenses from the other account
- Keep your receipts because HealthEquity may ask you to substantiate claims
- You can incur expenses through December 31 and must file claims by March 31 of the following year
- Once you enroll in FSAs, you cannot change your contribution amount during the year unless you experience a Qualifying Life Event, such as getting married or having a baby

Enroll using Workday

As a new hire

Within 31 days of a
Qualifying Life Event

During the annual
Open Enrollment period

You will need to provide the legal name, date of birth, and Social Security number for each dependent you add to your coverage to comply with legal requirements.

The benefits you choose as a new hire will begin on your date of hire, and continue throughout the year. You cannot make changes during the year unless you have a Qualifying Life Event.

Making changes to your benefits during the year

If you experience a Qualifying Life Event, you can make changes to your benefit elections. Changes must be made within 31 days of the event date.

Here are some examples of Qualifying Life Events:

- Start or end of a marriage or domestic partnership
- Birth or adoption of a child
- Child reaching age 26
- Death of a spouse, partner, or child
- Change in child custody
- You or your eligible dependent loses coverage under another plan

You will need to provide documentation of the event, such as a marriage certificate, divorce decree, or birth certificate. Benefit changes must be consistent with the Qualifying Life Event. If enrolling a Domestic Partner, you'll need to review and complete the Domestic Partner Agreement and submit it along with the other proof documents outlined in the Agreement. Your elections will remain in effect for the remainder of the plan year unless you have another Qualifying Life Event.

Review and update your beneficiaries

Designating a beneficiary for your life insurance, 401(k), and ESPP ensures the timely payment of benefits to your survivors if something happens to you. Be sure to review and update your beneficiary designations and ensure your address and personal information are correct in Workday, as well as with Fidelity and E*TRADE.
